

Public Power Corporation of Greece and Maritime Electrification

Athens, February 27th 2018

Lazaros STATHAKIS, Executive Member of the BoD – PPC S.A.

- **Electrification** is pivotal towards the reduction of emissions and the mitigation of the climate change
- **Decarbonisation, Digitalization and Decentralization (the 3 Ds)** are the cornerstones of the future energy system
- **PPC** is being transformed from a State monopoly into a regional player

PPC's new strategy includes:

- Fast development in **RES**, distributed generation, enhanced investments in **distribution grids** as a PPC asset.
- New energy markets of **Gas, Storage** of electricity, **bunkering** etc
- Electrification of new sectors (including road and maritime **transportation**)
- Strong presence in **regional markets** with acquisitions and new projects.

PPC is committed to play an **indispensable role** in the development and modernisation of the **Energy Union** in Greece and in the region of South Eastern Europe and the Middle East

- **Electricity is**

- » **Clean** non-polluting energy
- » **Easy** to control, transport and distribute
- » **Cheap** through technology evolution

- **Electrification** is pivotal towards the reduction of emissions and the **mitigation of the climate change.**

- At the same time it creates **win-win** situations and benefits for all the parties involved.

- Maritime electrification has **clear environmental advantages.**
- Brings additional **economical and societal benefits** for
 - ✓ Port and coastal areas and networks
 - ✓ Clean transport
 - ✓ Energy storage solutions
 - ✓ Smart meters deployment
 - ✓ Demand response solutions

PPC is willing to:

- Assess the **electrification potential** in collaboration with leading maritime industry players.
- Be part of the solution, develop and implement with all stakeholders **joint electricity-transport** activities on a proper business model.
- Promote **innovative and pilot applications**, in relation to RES and maritime electrification, using EU financing.

THANK YOU!

Public Power Corporation S.A.-Hellas
Always by your side
